michaeldiputra

I am a student at Wira Harapan Vocational School, majoring in Software Engineering, with a strong interest in information technology and software development. Have experience in web design competitions and be able to implement designs into websites. I am committed to continuing to learn and develop in the IT field, and am able to work individually or in a team.

## Experience

17 JUNE 2024 - 14 DECEMBER 2024
**Internship**
Remote Collaboration with Singapore-based Clients
 - Completed 15+ tasks/week in website development using Next.js & Laravel, collaborating with a team via Git for Singapore-based clients.
 - Identified and fixed bugs in a TypeScript-based mobile application following team instructions.

JANUARY 2024
**Provincial Skills Competition (LKS)**
3rd Place — Individual Web Design
 - Provincial-level competition (Student Competency Competition) held individually.
 - Achieved 3rd place with less than 1 month of preparation.

AUGUST 2023 - OCTOBER 2023
**INVENTION 2023**
Finalist — Team Web Design Competition
 - Competition with a 2-member team to create a website titled "CodeCamp", fully deployed online along with proposal and PowerPoint presentation.
 - Contributed to program development, PowerPoint design, proposal, and presentation.

## Education

2022 - 2025
Software Engineering Department
SMK Wira Harapan

## Skills

 - Front-End Development: HTML, CSS, JavaScript, React, Next.js, Tailwind/Bootstrap.
 - UI/UX Implementation: Convert Figma designs into responsive code.
 - Back-End Development: PHP, Laravel, AdminLTE, Filament (database management).
